Contents Index

Energy Conservation Strategies in Urban Transportation—Application of Multiple Criteria Decision-Making
Gwo-Hshiung Tzeng and Tzay-An Shiau 1

An Input-Output Model for Energy Policy Evaluation
Hsiao-Fan Wang and Yih-Chyi Chuang 21

Economic Incentives for the Reduction of Sulfur Dioxide Emissions
David G. Streets and Thomas D. Veselka 39

Understanding the Future of the United States' Electricity Markets
Frederic H. Murphy and Reginald Sanders 61

Wheeling, Competition, and Ecnomic Efficiency
Charles G. Stalon 77

PURPA 210 Avoided Cost Rates: Economic and Implementation Rates
Michael D. Devine, Michael A. Chartock and Elizabeth M. Gunn 85

Empirical Analysis of Power Plant Siting
Clark W. Bullard and James F. Klausner 103

Historical Perspectives on Japanese Energy Policies
Yasumasa Kuroda, Fereidun Fesharaki, and Wendy Schultz 121

Energy Use in U.S. Manufacturing: Early Structural and Technological Adjustment to the 1973–74 Energy Price Shock
John M. Gowdy and Jack L. Miller 143

Behavioral Determinants of Energy Consumption in a Centrally Heated Apartment Building
John M. DeCicco and Willett Kempton 155

Deterrents to Energy Conservation Investment in Public Housing
Evan Mills, Ronald L. Ritschard, and Charles A. Goldman 169

A Multiobjective Programming and Interindustry Model for Energy-Economic Planning in Taiwan
George J. Y. Hsu, PingSun Leung and Chauncey T. K. Ching 185

A Comparative Study of Japan and United States Nuclear Enterprise: Industry Structure and Construction Experience
George W. Hinman and Thomas C. Lowinger 205

Residential Wood Use Trends in the Pacific Northwest
Bruce Tonn and Dennis Lee White 231

World Oil — An Essay on its Spectacular 120-Year Rise (1859–1979) Recent Decline, and Uncertain Future
Henry R. Linden 251

Regional Effects of a Gasoline Tariff in a Two Good Spatial Equilibrium Model
Roy Boyd and Carol A. Dahl 267

The Relationship Between Energy and Employment: A Re-Examination
Eden S. H. Yu, Peter C. Y. Chow and Jai-Young Choi 287

Recommendation and Installation of Residential Retrofit Measures in the Hood River Conservation Project
Eric Hirst and Richard Goeltz 297

Thermal Comfort, Energy Conservation and Fuel Substitution: An Economic-Engineering Approach
Franz Wirl 311
